DETAILED ACTION

1. This communication is responsive to the communication filed 08/06/2007.

Election/Restriction

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. Claims 1-4, 9-10, 12-15, 17-38, and 40-43, drawn to the structures/structural elements of an acoustic transducer comprising a diaphragm and a frame comprising a **ferromagnetic material**;
- II. Claims 1, 5-6, 16 and 66-67, drawn to the structures/structural elements of an acoustic transducer comprising a diaphragm having at least a **fin**;
- III. Claims 69-71, drawn to the structures/structural elements of an acoustic transducer comprising a diaphragm and a frame comprising a **non-ferromagnetic material**.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, on group is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to

be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Suhan Ni** whose telephone number is **(571)-272-7505**, and the number for fax machine is **(571)-273-7505**.
